Proposed Self-Storage & Solar PV Facility
100 Milford Road, Grafton
ASE Project #2014-316***

Dear Mr. Laydon:

Andrews Survey & Engineering, Inc. (ASE) is in receipt of your memorandum dated February 11, 2015 regarding the applications for the above referenced project. Pursuant to our meeting at your office on February 12, 2015, we have prepared the following responses.

Self-Storage

1. Unbound and executed application forms for the Self-Storage Special Permit/Site Plan Approval and the Solar Facility Special Permit/Site Plan Approval are enclosed herewith.
2. A properly executed Certificate of Good Standing was submitted on February 12, 2015.
3. The office hours will from 9 a.m. to 5 p.m. Monday through Saturday. The storage facility will be accessible 24 hours per day, 7 days per week via a key pad at the entrance gate.
4. The storage facility will offer employment for a maximum of two (2) employees.
5. Assessor Map and parcel information was provided on the cover sheet, but shall be added to every sheet on a future plan revision.
6. Since the applicant does not want to encourage tenants to dump their unwanted belongings, no dumpster will be provided. In lieu of a dumpster, the office space will utilize modern style rolling trash totes similar to those used for residential trash disposal. The totes will be stored in the immediate vicinity of the office and be accessible for pickup by the disposal company.
7. A stormwater management report was included with the submittal package.
8. Written statements required by Section 1.3.3.3.g.1 and 1.3.3.3.g.2 are enclosed herewith.
9. Pertinent and relevant traffic information for the proposed self-storage facility was included with the application package. However, a formal waiver request for a full traffic study is enclosed herewith.

Comments:

1. **Signs:** A sign in compliance with the Zoning Bylaws will be provided on a future plan revision.
2. **Septic:** The septic leaching area shown on the submitted plans is sized based on the minimum flows for the proposed use per MassDEP Title 5 and the anticipated soil classification based on nearby test results. A septic design plan shall be submitted to the Board of Health for review.
3. **Fence:** The fence shown on the submitted plans shall be corrected on a future revision to comply with the Zoning Bylaws.

Phone (508) 316-0452
Fax (508) 316-0963

www.andrews-engineering.com

4. Lighting: An alternative fixture for use on the front building and the use of pole mounted lights on the east side of the site shall be considered.
5. Landscaping/Screening: The intent of the landscaping is provide screening and a visual buffer from the street. The plantings will be revised on a future plan revision to provide a single row of shrubs along the street and some additional screening in the northeast corner of the site.
6. Building Elevations: The photos included with the site plan application were intended to show sample building materials and colors and were not intended to be the precise buildings proposed. Building elevations corresponding to the proposed buildings shall be furnished by the applicant immediately upon their availability.

Solar Electric Generation

1. Unbound and executed application forms for the Solar Facility Special Permit/Site Plan Approval are enclosed herewith and a Certificate of Good Standing was submitted on February 12, 2015.
2. A written description of the proposed solar project is enclosed herewith.
3. Future revisions of the plans will be labeled to reference the Solar Electric Generation project.
4. Information regarding specific details on how the solar system will be connected to the existing electric grid will be determined by National Grid following their review of the interconnection study. It is anticipated that the proposed system will connect to the grid at the existing transformer along Milford Road.
5. The method of mounting the panels to the roofs of the proposed building shall be provided by the applicant. A request has been submitted to the manufacturer and will be provided immediately upon its availability.
6. Building elevations illustrating proposed panels shall be furnished by the applicant immediately upon their availability.
7. A waivers request list for the site plan requirements related to the solar electric generation project is enclosed herewith.

We hope this serves your needs at this time. Should you have any questions or require additional information, please contact this office.

Very truly yours,
ANDREWS SURVEY & ENGINEERING, INC.

Project Narrative – Solar Facility

Site and Project Description

The project area is comprised of a single parcel of land situated in the southern portion of the Town of Grafton on the south side of Milford Road just west of the Grafton/Upton town line and partially abuts the Grafton/Northbridge town line containing approximately 5.0± acres of land and occupying 611.79 feet of frontage. The property is bounded on the north by Milford Road, on the west by other land of the owner/applicant, on the south by other land of the owner/applicant partially situated in Northbridge, and on the east by other land of the owner/applicant. Across Milford Road to the north is a residential development permitted and constructed under the MGL 40B program also situated in the Office-Light Industrial Zone. The existing topography slopes moderately uphill from Milford Road from elevation 466 to 476 with grades falling off toward a wetland off the west edge of the property. Historically, existing site conditions can be classified as an agricultural field. In 2011, a special permit was granted by the Planning Board for an access driveway to a ground-mounted solar electric generating facility on the abutting land situated in Northbridge.

The applicant is proposing to install a roof-mounted solar photovoltaic system on the roofs of the proposed self-storage facility buildings. The proposed panels will be fixed to the roofs and the total system size will be approximately 500 kW. The proposed building roofs will be pitched south facing at a slope of approximately ¾" per foot.

Although the facility will operate 24 hours per day, 7 days per week, it technically only functions during daylight hours which vary throughout the year. No direct employees will be needed to operate the solar facility. However, periodic visits to the facility for inspection and maintenance will be performed. It is anticipated that there will be approximately 12-15 inspection and/or maintenance visits per year.

It is anticipated that the proposed solar facility will connect to the existing electrical grid at an existing transformer along Milford Road. However, final connection details will be determined by National Grid.

There are no hazardous materials proposed as part of the solar facility.

GRAFTON, MA**

Waiver Requests – Self-Storage

Section 8.2 – Traffic Study – The applicant requests a waiver from this section of the zoning bylaws. A detailed narrative of anticipated traffic generation for the proposed self-storage facility are enclosed within the application package. The data presented is from an existing comparable self-storage facility.

Waiver Requests – Solar Electric Generation

Section 1.3.3.3(e) – A stormwater management hydrological study prepared in accordance with the Rules and Regulations Governing the Subdivision of Land: Grafton, Massachusetts (Sections 3.3.3.19 and 4.7.8)

The applicant requests a waiver from this section of the zoning bylaws since a stormwater management hydrological study was prepared and submitted for the proposed self-storage site and no additional runoff will be created from the proposed roof-mounted solar photovoltaic system.

Section 1.3.3.3(f) – A report, if applicable, showing calculations of the volume of earth material to be removed from or delivered to the site, including a description of such removal or fill activity. Depending upon the volume of material to be removed or filled, the Planning Board may require the Applicant to submit additional information (if not submitted in the report) regarding, but not limited to, the following: the hours of fill/removal activity; proposed route(s) of transporting materials to and from the site; and measures for dust and erosion control (both on-and off-site) for the proposed activity.

The applicant requests a waiver from this section of the zoning bylaws since earthwork volumes were provided for the proposed self-storage site and no additional earthwork will occur from the proposed roof-mounted solar photovoltaic system.

Section 8.2 – Traffic Study

The applicant requests a waiver from this section of the zoning bylaws. There will be negligible traffic generation from the proposed solar electric generating facility.

TREASURER / COLLECTOR

Certificate of Good Standing

Applicants seeking permits with the Town of Grafton must submit this completed form at the time of application. When all obligations are paid to date, you must attach this "Certificate of Good Standing," with your application. Delinquent bills must be paid in full before the appropriate department accepts your application. Please make arrangements to pay these outstanding bills at the Collector's Office.

Please note: it can take up to three (3) business days to process each request.

Please check all that apply and indicate if permit(s) have been issued.

Project Narrative

Site and Project Description

The project area is comprised of a single parcel of land situated in the southern portion of the Town of Grafton on the south side of Milford Road just west of the Grafton/Upton town line and partially abuts the Grafton/Northbridge town line containing approximately 5.0± acres of land and occupying 611.79 feet of frontage. The property is bounded on the north by Milford Road, on the west by other land of the owner/applicant, on the south by other land of the owner/applicant partially situated in Northbridge, and on the east by other land of the owner/applicant. Across Milford Road to the north is a residential development permitted and constructed under the MGL 40B program also situated in the Office-Light Industrial Zone. The existing topography slopes moderately uphill from Milford Road from elevation 466 to 476 with grades falling off toward a wetland off the west edge of the property. Historically, existing site conditions can be classified as an agricultural field. In 2011, a special permit was granted by the Planning Board for an access driveway to a ground-mounted solar electric generating facility on the abutting land situated in Northbridge.

The applicant is proposing to develop the site by constructing nine self-storage buildings being comprised of various sized units and associated site work including, but not limited to, paving, fencing, landscaping, and stormwater management devices. Upon completion the gross floor area of the facility will be approximately 51,750 square feet. Access to the project site is provided via an existing driveway off Milford Road that serves as access to the aforementioned solar field. The driveway will be upgraded in accordance with the enclosed Site Plans. The facility will be serviced by municipal water, gas, and an on-site septic system.

Included herein please find brief assessment of the project impacts.

Traffic

Due to the fact that the application is for a development on Milford Road which has an average existing pavement width in the vicinity of the property of twenty-six feet (26') and that the nature of the business presents negligible traffic impacts the applicant provides the following traffic impact assessment.

The applicant proposes to develop a self-storage facility on the subject property by constructing approximately 51,750 s.f. of storage and office space housed in nine (9) separate buildings containing storage units of varying size.

The ITE manual defines a Mini-Warehouse as a building in which a storage unit or vault is rented for the storage of goods. Each unit is physically separated from other units and access is usually provided through an overhead door or other common access point. In lieu of generating trip data figures based on the ITE Trip Generation Manual the applicant has gathered trip generation data from an existing operating facility. The following data provided is based on a 60,000 s.f. storage facility located on Route 126 in Ashland, Massachusetts with an occupancy rate of ninety four percent (94%). The data provided depicts the amount of gate activity for three (3) separate time periods, July 1-31, 2014, November 1-30, 2014, and December 1, 2014 through January 14, 2015.

The applicants proposed facility is slightly less than the size of the Ashland storage facility used in the above study data. Therefore the number of vehicles expected to enter and exit the facility would be comparable to the study data. The following data represents the existing trip data at the Ashland, MA facility and the anticipated trip generation of the Grafton facility upon completion.

Ashland Facility

Grafton Facility

<u>Activity Dates</u>	<u>Vehicles Trips</u>	<u>Avg. Trips/Day</u>	<u>Anticipated Trips/Day</u>
July 1-31, 2014	977	32	26
November 1-30, 2014	748	25	20
Dec. 1, 2014 – Jan. 14, 2015	839	19	15

Given these numbers, the impacts at the site driveway and at its intersection with Providence Street will be negligible. Furthermore, there are no anticipated decreases in levels-of-service (LOS) at these locations.

Environmental

The project has been analyzed for potential environmental impacts. As a result, the design implements the necessary features to protect the environment and provide improvement over existing conditions. The 100-foot buffer zone to a Bordering Vegetated Wetland (BVW) situated on the west side of the property. The site is not located within mapped Zone A or AE as shown on the latest Flood Insurance Rate Map issued by Federal Emergency Management Agency for Grafton.

According to the DEP's Priority Resources Map, there are no public water supply wells within one-half mile of the property and the project site is not located within a Zone II water supply protection area. The project site does not lie within an Aquifer and/or Watershed Protection District. No known certified vernal pools or Areas of Critical Environmental Concern (ACEC) are located on or bordering the property and according to the latest Edition of the Massachusetts Natural Heritage Atlas, Priority Habitat of Rare Species and Estimated Habitat of Rare Wetlands Wildlife is not located on or bordering the property.

The proposed use is not the type prone to significant impacts on air quality or noise levels. Harmful or noxious emissions would not normally be expected from any of the proposed uses, nor are any sources of smoke, odor, vibration, radiation or groundwater pollutants proposed. The project has been designed with lighting which utilizes full cut-off fixtures to prevent glare or other off-site impacts.

Portions of the development are located in a buffer zone to a resource area and the stormwater management system has been designed to attenuate and treat stormwater in accordance with Massachusetts DEP Stormwater Management Policy. Stormwater runoff will be contained and conveyed to a proposed stormwater infiltration basin where it will be treated, recharge the groundwater, and discharge to the BVW. The proposed paving and curbing containment is designed to contain and withstand maximum storm flows and velocities. The infiltration basin will serve the purpose of settling out sediments in runoff prior to discharge to the final outfall.

Upon completion the existing areas of exposed soils subject to erosion shall be stabilized with vegetative cover or other acceptable means. Erosion and sediment control measures are shown on the proposed site plans and will be implemented and maintained throughout the duration of the construction process to prevent the conveyance of sedimentation into environmentally sensitive areas and/or adjacent properties. Items addressing Site Maintenance Requirements, Operation of Best Management Practices and

Inspection and Maintenance of Best Management Practices are included in the "Operation and Maintenance Plan" included herewith. Disturbed areas will be stabilized upon the completion of work, and in the event that intense rainfall is expected, reinforcing control measures will be installed as needed to protect all wetland resource areas and adjacent properties. Erosion control measures shall remain in place and be maintained until such time that a Certificate of Compliance has been issued by the Grafton Conservation Commission, stating that the project has been constructed in accordance with the conditions set forth in the Order of Conditions.

Fiscal

The project does not have any unique components that would have abnormal effects on public safety resources (fire and police). It will not measurably increase economic or personnel burdens on these departments because the uses are not typically prone to creating nuisance, and is not a high fire hazard classification. The property will be serviced by municipal water and a private on-site septic system; however flows for the facility will be minimal creating a low demand on these municipal utilities.

Financially, the project will produce positive tax revenue. The final assessed value of the building is estimated at approximately \$3,000,000, which, at the current rate of \$16.50 per \$1,000 of value yields approximately \$49,500 in annual property tax payments.

Historic

The project site does not include any structure, site or district listed in the State Register of Historic Places or the inventory of Historic and Archaeological Assets of the Commonwealth. A search of the Massachusetts Cultural Resource Information System was performed to determine the site is not an historic property.

SELF STORAGE OCCUPANCY AGREEMENT

MANDATORY NOTICES: THE MASSACHUSETTS SELF-SERVICE STORAGE FACILITY ACT GIVES THE OPERATOR OF A SELF-SERVICE STORAGE FACILITY A LIEN ON OCCUPANT'S STORED PROPERTY "FOR RENT, LABOR, INSURANCE OR OTHER CHARGES IN RELATIONSHIP TO THE PROPERTY AND FOR EXPENSES NECESSARY FOR THE PRESERVATION OF THE PROPERTY OR REASONABLY INCURRED EXPENSES IN ITS SALE PURSUANT TO THE ACT." PROPERTY STORED IN THE LEASED SPACE, IS NOT INSURED BY THE OPERATOR AGAINST LOSS OR DAMAGE. IT IS THE OCCUPANT'S SOLE AND EXCLUSIVE RESPONSIBILITY TO INSURE ITS PERSONAL PROPERTY AGAINST LOSS OR DAMAGE. OCCUPANT'S PROPERTY MAY BE SEIZED TO SATISFY THE LIEN IF OCCUPANT IS IN DEFAULT.
MASSACHUSETTS LAW PROHIBITS OCCUPANT FROM USING THE LEASED SPACE FOR RESIDENTIAL PURPOSES.

TERMS AND CONDITIONS OF THIS OCCUPANCY AGREEMENT:

This Self Storage Occupancy Agreement is executed in duplicate on this _____ day of _____, 20____, by and between Hilltop Self Storage of Grafton LLC, a Massachusetts Limited Liability Corporation ("Operator"), with a principal place of business at Hilltop Self Storage of Grafton LLC, ("Premises") and _____, having an address of _____.

("Occupant") for the purpose of occupying certain self storage Space as hereinafter described with the express understanding and Agreement that no bailment or deposit of goods for safekeeping is intended or created hereunder. Occupant hereby leases Self Storage Space No. _____ square feet. Occupant agrees that Operator rents the Space by the square foot. There will be no refund if the Space contains less square feet than believed.

Occupant has not relied on any floor plan in determining the actual square footage of the Space. Occupant has examined the Space and Premises and acknowledges it is satisfactory for all purposes for which Occupant intends to use same.

1. **TERM.** To have and to hold the Space for a term commencing on the _____ day of _____, 20____, and continuing from the first day of the month to the last day of the month thereafter ("Term"), unless terminated as hereinafter provided.
2. **OCCUPANCY CHARGE.** During the Term, Occupant shall pay Operator on the first day of each calendar month in advance, an occupancy charge for the Space in the amount of \$_____ per month, without deduction. The first monthly payment shall be made on _____, 1, 20____ to Operator at the above address.

At the commencement hereof, Occupant shall pay a one-time non refundable administration fee of \$20.00.

Operator may contact any alternate contact person(s) in event of casualty (fire, accident or damage, etc.), or other emergency, or Operator's inability to reach Occupant. Unless Occupant refuses consent by marking this box [] Operator may at Operator's option allow such person(s) or Occupant's brother, sister, spouse, parent, or child over 18 to have access to the Space if such person signs an affidavit that Occupant is deceased, incarcerated, permanently missing or permanently incapacitated. Operator may discuss Occupant's account with any of such persons at any time.

3. **LATE, RETURNED CHECK & DECLINED CREDIT CARD CHARGES.** If Occupant does not pay occupancy charge within ten (10) days of when due, Occupant will pay Operator a \$10.00 late charge. If occupancy charge is more than ten (10) days late, Operator shall Operator shall double lock Occupant's Space and otherwise deny access to the Space and property stored therein until the occupancy charge and late charges are fully paid. Occupant shall pay Operator a \$10.00 double lock charge. Also, Operator reserves the right to remove any lock if Occupant's Space has two locks on it for purposes of double locking the Space due to delinquency or other default. Payments received will be applied to oldest charges first. The Parties agree that the late charge represents a reasonable estimation of Operator's costs in enforcing its rights due to Occupant's default. Occupant will pay to Operator a \$20.00 charge for every check returned to Operator for any reason, or for any declined credit card on the auto-bill payment system. Other charges arising from default or delinquency are listed throughout this Occupancy Agreement.
4. **TERMINATION OF MONTH TO MONTH OCCUPANCY AGREEMENT.** Either party shall have the right to terminate this Agreement by advance written notice given to the other party ten (10) days before the end of the Term stated in Paragraph #1 above or any renewal Term thereafter, and thereupon this Agreement shall terminate at the end of said Term.

5. **HOLDING OVER.** There will be no partial month occupancy. If Occupant vacates the Space five (5) days or more after the end of the Term stated in Paragraph #1 above, Occupant shall pay one full month's occupancy charge. If Occupant vacates the Space after the end of the above stated Term, but before five (5) days after the end of the above stated Term, Operator will prorate the occupancy charge on a daily basis. The provisions of this Paragraph #5 shall not operate as a waiver by Operator of any rights provided to Operator under Paragraph #11 of this Agreement.
6. **USE AND COMPLIANCE WITH LAW.** The Space shall be used only for storage of personal property owned by Occupant and for no other purpose. It is expressly agreed that Operator is under no duty to maintain any records of the property so stored in the Space. Occupant hereby acknowledges and agrees that Operator is not a warehouseman as defined in Massachusetts General Laws Chapter 105 or Article 7 of the Uniform Commercial Code. No property shall be stored in the Space unless Occupant has the right to have that property in his possession.

Occupant shall keep the Space in a clean and sanitary condition and free of rubbish, liquid waste or refuse. Occupant shall not use the Space for the use or storage of any animals; food; animal feed (including seed); explosives; highly flammable, dangerous, hazardous or toxic materials or substances (as defined below); noxious smelling items, contraband or illegal substances; items which are volatile, or which are hazardous when exposed to moisture, or which burn with extreme rapidity, or which when burning or subjected to heat produce toxic fumes or gases in quantities and under conditions dangerous to the safety or health of any person, or for any unlawful purpose of any kind. Occupant shall not store any property that includes combustible dust, explosive gases, flammable and combustible solids, flammable liquids, poisonous, corrosive or fumes or hazardous substances. Occupant shall not engage in any activity in the Space which produces such prohibited materials. These items include, but are not limited to, the following:

- A. **ANY ITEM PROHIBITED BY LAW OR ORDINANCE.** Occupant shall not store in the Space any items which shall be in violation of any order or requirement imposed by the Board of Health, Sanitary, Police or Fire Departments or other appropriate governmental body or do any act or cause to be done any act which creates or may create a nuisance in or upon or connected with the Space during the term of this Agreement or any renewal or extension thereof. Further, Occupant shall not use or allow the Space or Premises to be used for the release, storage, use, treatment, disposal or other handling of any hazardous substance without prior written consent of Operator. The term "release" shall have the same meaning as described to it in the Comprehensive Environmental Response Compensation and Liability Act, 42 U.S.C. Section 9602, et seq., as amended, ("CERCLA"). The term "hazardous substance" means:

- i. Any substance defined as a "hazardous substance" under CERCLA.
- ii. Petroleum, petroleum products, natural gas, natural gas liquids, liquefied natural gas and synthetic gas; and
- iii. Any other substance or material deemed to be hazardous, dangerous, toxic, or a pollutant under any federal, state or local law, code, ordinance or regulation, nor use the Space for the conduct of any business or for any human or animal habitation.

- B. **FOOD, PERISHABLE GOODS.** Occupant shall not store any improperly packaged food or perishable goods, or other items that may attract rodents, vermin, or other infestation in the Space.

- C. **UNLAWFUL OR GAS POWERED PROPERTY.** Occupant shall not use the Space for any unlawful purpose, for the operation of any commercial, industrial, manufacturing or distribution business. Occupant shall not use the Space for storage of any gasoline or other fuel oil, grease, or any other lubricant, tins or batteries, or any other accessories, except for such gas, oil, grease, or other lubricant as may be contained in the operating parts of the items stored in the Space and in such case shall store the item with no more than one quarter (1/4) tank of gas and a drip pan or absorbent pad designed to absorb petroleum products under the stored item to retain any leaking fluids and no propane may be stored in the Premises including containers. A Vehicle Storage Addendum must be completed and executed by Operator for any listed vehicle stored in the Space. Occupant shall not live or sleep in the Space, nor shall animals be permitted to be stored in the Premises.

7. **LIMITATION ON VALUE OF STORED PROPERTY.** Occupant agrees not to store property in the Space with a total value in excess of \$5,000.00 without the prior written permission of Operator. If such written permission is not obtained, the value of property shall be deemed not to exceed \$5,000.00. The Space is not appropriate for storage of irreplaceable property such as books, writings, objects which have an unknown immediate resale market value, or objects which have a special, sentimental, or emotional value to Occupant. By this Agreement, Operator is generally not liable for the loss of Occupant's property. In the event any competent court of law

adjudicates Operator liable for any loss, for any reason, Occupant agrees that Operator's liability shall not exceed \$5,000.00. This provision shall not constitute an admission that Occupant's property has any value whatsoever. Occupant warrants that the value of the property stored within the Space does not exceed five thousand dollars (\$5,000.00). If Occupant identifies that the property to be stored in the Space exceeds five thousand dollars (\$5,000.00), then Occupant must request, in writing, that Operator accept a higher valuation placed on said property. Operator has the right to refuse Space to Occupant if Occupant's property exceeds the value stated above, however, if accepted by Operator, Occupant will be required to: (a) provide proof of insurance for goods in storage and; (b) may pay a higher rate for the Space based on such increased value.

8. **NO EXHIBITION / NO WORK.** The Space shall not be employed or used by Occupant for on-premises exhibition or sales of property of any type or kind in or about the Space or any other place in Operator's lands or Premises. No repairs, maintenance or work of any type shall be done or caused to be done by Occupant in or about the Space or any other place in Operator's lands or Premises.
9. **CONDITION AND REPAIR OF THE PREMISES.** Occupant covenants and agrees to keep the Space in as good repair and condition as the same is in at the commencement of the Term, or may be put in thereafter, Occupant agrees to peacefully surrender the Space to Operator at the termination of this Agreement, empty and in broom clean condition and otherwise in the same order, repair and condition as when leased. Any dirt, debris, seaweed, shavings, garbage, refuse and like matter shall not be accumulated or stored but shall be removed from Premises by Occupant. In the event of any damage or injury to the Space or Premises arising from the act or omissions of Occupant, or for which Occupant is otherwise responsible, all expenses reasonably incurred by Operator to repair or restore the Space or Premises, including any expense incurred in connection with any investigation of site conditions, or any clean-up, removal or restoration work required by any applicable local, state or federal law regulation or agency regulating any hazardous or toxic substance, material or waste, shall be paid by Occupant as additional charges and shall be due upon demand by Operator.

10. **NON-LIABILITY OF OPERATOR AND INSURANCE OBLIGATIONS OF OCCUPANT.** All of the property stored by Occupant in the Space shall be at the sole risk and hazard of Occupant. THE PROPERTY STORED IN THE SPACE IS NOT INSURED BY OPERATOR AGAINST LOSS OR DAMAGE, AND THEREFORE, OCCUPANT MUST OBTAIN ANY INSURANCE DESIRED AT HIS/HER EXPENSE. Operator strongly recommends that Occupant secure his own insurance to protect himself and his property against all perils. Occupant hereby acknowledges that Operator has advised Occupant of the availability of insurance for the foregoing, without representation of the coverage afforded thereby, if Occupant purchases same, the insurance coverage is as set forth in the contract of insurance between the insurance company and Occupant, and without liability or responsibility therefore on the part of Operator. Operator shall not be liable for property damage, or loss from theft, vandalism, fire, water, hurricane, rain, explosion, bursting pipes, electricity caused fire, pests, vermin, rodents or any other cause whatsoever, unless the same is due to the negligence of Operator, its agents, servants or employees. Operator shall not be liable for loss or damage resulting from the failure, interruption or malfunction of any utilities, appliances, or fixtures provided to Occupant under the terms of this Occupancy Agreement. Operator shall not be liable for loss or damage suffered by personal injury to Occupant or Occupant's invitees, which occur on or about the Premises or the Space.

Occupant shall indemnify Operator and hold Operator harmless from and against any liability for injury, loss, accident or damage to any person or property, and from any claims, actions, proceedings and expenses and costs in connection therewith (including, without limitation, attorney fees), (i) arising from (a) the negligence or willful act, or other misconduct of Occupant or (b) from any use made or thing done or occurring in the Space or Premises not due to the omission, fault, willful act, negligence or other misconduct of Operator, or (ii) resulting from the failure of Occupant to perform and discharge its covenants and obligations under this Agreement.

OCCUPANT SHALL TAKE WHATEVER STEPS NECESSARY TO SAFEGUARD WHAT IS ON OR IN THE SPACE OR PREMISES WHICH IS THE SUBJECT OF THIS AGREEMENT. OCCUPANT MUST PROVIDE HIS OWN LOCK THE SAME DAY HE ENTERS INTO AN OCCUPANCY AGREEMENT WITH OPERATOR. IT IS OCCUPANT'S SOLE RESPONSIBILITY FOR WHO HAS POSSESSION OF OCCUPANT'S LOCK KEYS. OPERATOR WILL NOT KEEP A DUPLICATE KEY TO OCCUPANT'S SPACE. NOR SHALL OCCUPANT PROVIDE OPERATOR OR OPERATOR'S AGENTS WITH A KEY AND/OR COMBINATION TO OCCUPANT'S LOCK. OPERATOR RESERVES THE RIGHT TO REMOVE ANY LOCK IF OCCUPANT'S UNIT HAS TWO LOCKS ON IT FOR THE PURPOSES OF DOUBLE LOCKING THE UNIT DUE TO DELINQUENCY. OCCUPANT ACKNOWLEDGES THAT NO ELECTRICITY, WATER, HEATING OR AIR COOLING IS FURNISHED OR AVAILABLE IN THIS SPACE.

Should any of Operator's employees perform any services for Occupant at Occupant's request, such employees shall not be deemed to be the agents of Operator regardless of whether payment for such services is made or not, and Occupant agrees to indemnify and save Operator harmless from all liability in connection with services performed by Operator's employees, together with attorney's fees and cost of suit.

11. **OTHER CHARGES AND FEES.** In the event Occupant's default continues for twenty (20) days, to a time where certified mailing in preparation of the account for lien sale begins a certified mail and lien preparation fee of \$30.00 shall be paid by Occupant. Should advertisements be placed for the sale or auction, Occupant will pay a \$50.00 advertising fee whether or not the Space actually goes to sale. This fee is imposed on the date a first advertisement is run in the newspaper. Occupant shall also be liable to Operator for cleaning charges if the Space is not left as described in Paragraph 8 of \$50.00 per hour, 1 hour minimum, plus disposal costs.

12. **MOLD.** Occupant understands that there is a risk of the growth of mold and/or mildew on Occupant's stored property, even in a Temperature Controlled Space. Operator does not warrant the Space to be water tight or dry. Mold is a naturally occurring substance and it is possible to have mold appear or grow on Occupant's Property. To help avoid mold, Operator recommends storing Property off the concrete floor, such as on pallets or shelves (do not attach to the Space), wrapping certain property in plastic and keeping goods susceptible to mold from touching the walls of the Space. Occupant understands that any property brought into the Space that is damp or wet will likely grow mold or mildew because of its wet or damp condition when brought into the Space. Operator recommends periodically inspecting the Space and the property and taking any and all actions necessary to protect Occupant's property.

13. **ALTERATIONS, SIGNS AND WASTE.** Occupant shall not make nor suffer any alterations of the Space or Premises, nor post any signs without the express written consent of Operator. Occupant shall not permit nor suffer any waste on the Space, Premises or property of Operator.

14. **CHANGE OF ADDRESS.** IT SHALL BE THE DUTY OF OCCUPANT TO FURNISH OPERATOR, IN WRITING, OF ANY CHANGE OF ADDRESS OR PHONE NUMBER BY CERTIFIED MAIL, RETURN RECEIPT REQUESTED, POSTAGE PREPAID.

15. OPERATOR'S RIGHT TO ENTER, INSPECT AND REPAIR THE SPACE. Operator shall have the right, upon reasonable prior notice to Occupant, except in cases of emergency, in which event, no such notice shall be required, to enter the Space (and to break the lock thereto, if necessary) for the purpose of examining the same for violations of this Occupancy Agreement, and for making repairs or alterations to the Space. Occupant further grants Operator, its agents or the representatives of any governmental authority, including police and fire officials, access to the Space or Premises in the event of any emergency or default, and to remove Occupant's lock and enter the Space or Premises for the purpose of examining the Space or Premises or the contents thereof, or for the purpose of making repairs, alterations, or taking any other actions as may be necessary or appropriate to preserve the Space or Premises or to comply with applicable local, state or federal law or regulation governing hazardous or toxic substance, material or waste or to enforce any of Operator's right or in order to comply with any applicable law, government or quasi-government order including, but not exclusively, governmental or court order, fire marshal order, warrant, or subpoena or to enforce any of Operator's rights.

16. DEFAULT, OPERATOR'S REMEDIES AND LIENS. In addition to all other rights allowed by law to a creditor against his debtor, Operator shall have a lien, in the event of a default by Occupant hereunder, on all Property stored within the Space for the amounts of occupancy charges, labor, insurance or other charges incurred in relation to such property and for expenses necessary for the preservation of the property or reasonably incurred in its sale or other disposition in accordance with applicable law.

Time is of the essence in the performance of this Agreement and in the payment of each and every installment of any occupancy charge or any other charges to be paid in accordance with this Agreement. If any such occupancy charge or other charges shall be due and unpaid or if Occupant shall fail or refuse to perform any of the covenants, conditions or terms of this Agreement, AND IF SUCH DEFAULT CONTINUES FOR MORE THAN FIVE (5) DAYS, OPERATOR, AT ITS OPTION, MAY (a) terminate Occupant's right to use the Space and to store property therein; (b) double-lock the Space or otherwise deny Occupant access thereto; (c) enter the Space for the purpose of taking inventory of the property stored therein, and for the purpose of removing any property found therein and moved to a place for safekeeping at the expense and risk of Occupant; and (d) ENFORCE ITS LIEN BY SELLING THE PROPERTY AT A PUBLIC SALE IN ACCORDANCE WITH THE PROVISIONS OF APPLICABLE LAW, and apply the net proceeds from such sale to the payment of all sums due to Operator from Occupant hereunder, and to pay over the balance, if any, on demand, to Occupant. If Occupant does not demand payment of the balance within thirty (30) days from the date of the sale, such balance will be forfeited by Occupant to Operator. Notwithstanding the foregoing, Operator shall not be obligated to sell the Property at such public sale for any amount of money more than is reasonably necessary to satisfy its lien.

In the event of a sale as provided in this Occupancy Agreement, it is further understood that the date of such sale shall constitute the date of the termination of this Occupancy Agreement.

In the event this Occupancy Agreement is terminated for breach of any obligation of Occupant, Occupant shall remain personally liable for the payment to Operator of all accrued and unpaid occupancy charge and all other charges due to Operator hereunder at the time of termination of this Agreement. Interest shall accrue at the rate of 1.5% per month on any unpaid balance.

17. OCCUPANT'S RIGHTS IN THE EVENT OF DEFAULT. Any time prior to the sale of Occupant's property pursuant to Paragraph #16, any person may pay the amount necessary to satisfy Operator's lien and to reimburse Operator for all amounts then owed to it under this Agreement. Notwithstanding the foregoing, Operator shall not be obligated to accept payment unless such payment is made in cash or by bank certified check or checks.

Operator shall have no further liability to any person in respect of such property.

18. ABANDONMENT OF OCCUPANT'S PROPERTY. If Occupant has removed his/her lock from the Space, or, at the discretion of management, property shall remain in the Space after the expiration or termination of this Agreement, including, without limitation, all papers, pictures and documents, such property shall be deemed abandoned, and either may be retained by Operator as its own property, sold in accordance with the provisions of Paragraph #16 above, or disposed of or destroyed. If such property or any part shall be sold, Operator may receive and retain the proceeds of such sale and apply the same, at its option, against the expenses of re-entry and sale, the cost of moving and storage, any arrears of occupancy charges or any additional charges and any damages which Operator may be entitled to under this Agreement or in accordance with law.

19. BANKRUPTCY AND OTHER LEGAL ACTIONS. In the event that Occupant files a voluntary petition in bankruptcy, or suffers a petition in involuntary bankruptcy to be filed against him, or makes an assignment for the benefit of creditors, or is the subject of any type of legal action wherein the use and occupancy of the Space by Occupant is in issue, then Operator may, at its option, terminate this Agreement, and Occupant shall thereafter have no rights and remedies granted in accordance with Paragraph #15 above.

20. BREACH OF COVENANTS AND CONDITIONS. A breach of any of the covenants or conditions by Occupant shall, at the option of Operator, terminate this Agreement, and if so terminated, Operator may take such action as is set forth in Paragraph 15.

21. WAIVER. No waiver by Operator, its agents, servants or employees of any breach or default by Occupant in the performance of any covenant, term or condition of this Agreement shall constitute waiver of any subsequent breach or default by Occupant in the performance of any term, covenant or condition of this Agreement.

22. CHANGE OF TERMS. All of the terms, charges, conditions and covenants of this Agreement are SUBJECT TO CHANGE BY OPERATOR UPON THIRTY (30) DAYS prior written notice to Occupant. If changed, Occupant may terminate this Agreement on the effective date of such change by giving Operator TEN (10) days prior written notice to terminate. If Occupant does not give such notice, the change shall become effective and apply in accordance with the terms of the notice.

23. RECOVERY OF ATTORNEY'S FEES AND COSTS. In the event any action is instituted or any other proceedings taken to enforce any term, covenant or condition contained in this Agreement or to recover any occupancy charge or additional charge due hereunder, or to recover possession of the Space for any default or breach of this Agreement by Occupant, Occupant shall pay Operator reasonable attorney's fees, costs and expenses in connection with such action or proceedings.

24. CO-OCCUPANTS OR ASSIGNMENT. Occupant shall not permit any other person to jointly occupy the Space, which is the subject of this Agreement, nor may Occupant assign this Agreement, without the expressed written permission of Operator in advance.

25. ACCESS. Occupant shall have access to the Space during normal hours of operation as posted in the office of the Premises. Such hours are subject to change by Operator. Operator shall not keep a duplicate key to any Occupant's unit. Operator or his agents WILL NOT accept shipments for any Occupant. Occupant must provide for acceptance himself of any goods shipped to the Space or Premises.

26. SUCCESSION. All of the provisions of this Agreement shall apply to, bind, and be obligatory upon the heirs, executors, administrators, representatives, and successors of the parties to this Agreement.

27. GOVERNING LAW, JURY TRIAL AND SEVERABILITY. This Occupancy Agreement shall be governed by the laws of the Commonwealth of Massachusetts without regard to its conflict of laws provisions. Operator and Occupant agree to waive their respective rights to trial by jury of any cause of action, claim, counterclaim or cross complaint in any action arising out of or connected in any manner with this Occupancy Agreement, including any action for bodily injury, death or property damage. Operator and Occupant further agree that the federal or state courts in Middlesex County, Massachusetts shall have exclusive jurisdiction for any litigation related to this Occupancy Agreement. If any part or provision of this Occupancy Agreement is determined to be unenforceable by a court of law, the parties agree that all remaining parts or provisions of this Occupancy Agreement shall remain in effect and be valid and enforceable.

28. ENTIRE AGREEMENT. This Agreement constitutes the sole and only Agreement of the parties hereto, and supersedes any prior understandings or written or oral Agreements between the parties respecting the subject matter of this Agreement. No amendments or alterations of the terms of this Agreement shall be binding upon the parties unless they are in writing, dated subsequent to the date of this Agreement, and duly executed by the parties, or modified pursuant to the provisions of Paragraph #20.

29. EXCLUSION OF WARRANTIES. The agents and employees of Operator are not authorized to make any warranties about the Space referred to in this Agreement. NO ORAL STATEMENT BY OPERATOR'S AGENTS OR EMPLOYEES SHALL CONSTITUTE WARRANTIES, and such statements shall not be relied upon by Occupant and they are not part of this Agreement. The entire Agreement and the understanding of the parties to it is embodied in this writing, and NO OTHER WARRANTIES are given beyond those specified in this Agreement. The parties to this Agreement agree that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE and all other warranties expressed or implied, ARE EXCLUDED from this transaction and shall not apply to the Space. It is further understood and agreed that Occupant has been given an opportunity to inspect the Space and has done so, and agrees to occupy the Space in its AS-IS CONDITION WITH ALL FAULTS.

30. RULES AND REGULATIONS. Occupant covenants to comply with all reasonable rules and regulations now or hereafter made by Operator, of which Occupant has been given notice, for the care and use of the Space, and Operator shall not be liable to Occupant for the failure of other Occupants of the Premises to conform to such rules and regulations. Operator reserves its right to amend the rules and regulations from time-to-time and Occupant agrees to familiarize himself/herself with said rules and regulations as they may occur. Furthermore, Occupant is deemed to have acknowledged any change of rules and regulations, including, but not limited to hours of service etc.

31. HEADINGS AND GENDER, CONTEXT. The headings of the various provisions of this Occupancy Agreement have been included only for the convenience of the parties and are not to be used in construing this Occupancy Agreement or in ascertaining the intentions of the parties. Whenever the context so indicates the masculine, feminine or neuter gender and the singular or plural number shall be deemed to include the others. The singular shall include the plural, the plural the singular.

32. AGREEMENT TO MEDIATE. Realizing that in Self-Storage relationships there is always a possibility of differences of opinion or other disagreements and that what is most important is to resolve any disputes amicably, quickly, inexpensively and professionally and to return to business as soon as possible, it is with that spirit of cooperation that Operator and Occupant pledge to resolve differences and to use the procedures specified in this Occupancy Agreement. Therefore, Operator and Occupant agree as follows: with the exception of non-payment of Occupant's Occupancy Charge and Operator's right to conduct a lien sale, declare an abandonment, or evict as a result of Default under this Occupancy Agreement, any litigation, claim, dispute, suit, action, controversy, proceeding or otherwise ("claim") between or involving Operator and Occupant, whether arising out of or relating in any way to this Occupancy Agreement and/or any other document, any alleged breach of any duty or otherwise will be submitted to non-binding mediation for a minimum of eight hours before any other mediation organization approved by Operator and Occupant located within twenty (20) miles of the Facility. In the mediation, Operator and Occupant shall each be represented by an individual authorized to make binding commitments on our respective behalves and may be represented by counsel. In addition, Operator and Occupant may, with permission of the mediator, bring such additional persons as are needed to respond to questions, contribute information and participate in the negotiations. The fees and expenses of the mediator and/or mediation organization shall be shared equally by Operator and Occupant. The mediator shall be disqualified as a witness, consultant, expert or counsel for any party with respect to the dispute and any related matters.

33. WARRANTY OF INFORMATION. Occupant warrants all information given in this Occupancy Agreement or any application preceding this Occupancy Agreement is complete, true and accurate at the time of this Occupancy Agreement.

34. PEST CONTROL. Occupant is advised that Operator uses chemicals at the Facility including around the Leased Space, for pest control. For this reason, no pets are allowed.

35. PERMISSION TO CALL, FAX, OR E-MAIL. Occupant recognizes Operator and Occupant are entering to a business relationship as Operator and Occupant. As such, to the extent any Federal or State law prohibits Operator from contacting Occupant by phone, fax, or e-mail, Occupant hereby consents to Operator phoning, faxing, and e-mailing Occupant with business-related communications.

36. CONSENT TO CONDUCT BACKGROUND, CREDIT OR CRIMINAL CHECK. Occupant hereby authorizes Hilltop Self Storage of Grafton LLC to obtain consumer reports, and any other information it deems necessary, for the purpose of evaluating Occupant's application. Occupant understands that such information may include, but is not limited to, credit history, civil and criminal information, records of arrest, rental history, employment/salary details, vehicle records, licensing records, and/or any other necessary information. Occupant understands that subsequent consumer reports may be obtained and utilized under this authorization in connection with an update, renewal, extension or collection with respect or in connection with the rental or lease of a self-service storage Space for which application/lease was made.

37. NOTICE TO OCCUPANT: DO NOT SIGN THIS OCCUPANCY AGREEMENT BEFORE YOU READ IT AND FULLY UNDERSTAND THE COVENANTS AND CONDITIONS CONTAINED HEREIN. YOU ARE ENTITLED TO A COPY OF THE AGREEMENT YOU SIGN.

Name: _____
Address: _____
City, State, Zip: _____
Phone: _____

KEEP THIS AGREEMENT TO PROTECT YOUR LEGAL RIGHTS.

IN TESTIMONY WHEREOF, Operator has caused this instrument to be executed in duplicate under seal and Occupant has hereunto affixed his/her signature on the date and year first above written. Occupant acknowledges receipt of a fully executed copy of the Occupancy Agreement.

* ENERGY STAR® Qualified

COLOR CHART

SOLAR REFLECTIVITY (SR)?

Solar reflectivity or reflectance (SR) is the ability of a material to reflect solar energy from its surface back into the atmosphere. The SR value is a number from 0 to 1.0. A value of 0 indicates that the material absorbs all solar energy and a value of 1.0 indicates it is all reflected. Energy Star requires SR testing of both new and aged roof products. New products must have an SR value of 0.25 or higher for steep slope (above 2:12) roofing and an SR value of 0.65 or higher for low slope (2:12 or less) roofing. Aged testing takes 3 years to complete, so not all products that meet the initial requirements are qualified. For more information, please go to www.energystar.gov.

SOLAR REFLECTANCE INDEX (SRI)?

The SRI is used to determine compliance with LEED requirements and is calculated according to ASTM E 1980 using values for reflectance and emissivity. Emissivity is a material's ability to release absorbed energy. To meet LEED requirements, a roofing material must have an SRI of 29 or higher for steep slope (above 2:12) roofing and an SRI value of 78 or higher for low slope (2:12 or less) roofing. For more information, please go to www.usgbc.org.

Wall Mount Luminaire

COOPER Lighting

WP WAL-PAK WALL SERIES

WALL MOUNT LUMINAIRE

THE NEW STANDARD

The Wal-Pak Series of wall luminaires offers traditional architectural styling, rugged construction and superior performance. Coupled with available Light Emitting Diode [LED] technology, full cutoff removable door, standard IP65 Ingress Protection and emergency egress options, Wal-Pak is an exceptionally flexible platform that offers undisputed appeal for wall mount applications.

ENERGY SAVINGS

Conservation of energy, expertise in design and rigorous reliability testing ensure superior luminaire performance. With advancements in LED technology combined with Cooper Lighting's expertise in fixture and optical design, the Wal-Pak Series demonstrates that new technology saves energy without compromising performance.

ABUNDANT SELECTION

The Wal-Pak Series provides a choice of three [3] hinged, removable doors including IESNA full cutoff, Solite™ flat glass lens and refractive, tempered borosilicate glass along with six [6] unique lamp sources including energy efficient LED, pulse start metal halide, compact fluorescent, ceramic metal halide, standard metal halide and high pressure sodium.

LED SPECIFICATION FEATURES

UNIFORM ILLUMINATION

Wal-Pak's patent pending LED light engine is optimized for energy efficient performance. With effective thermal management, precise positioning of the LED package assembly and a highly reflective anodized aluminum reflector; Wal-Pak LED provides glare free, uniform illumination while providing a safe and comfortable visual experience.

LED TECHNOLOGY

Light emitting diodes are solid state devices that offer uniform illumination, reliable long life, eco-friendly low maintenance, and superior energy savings. Over 70% of the initial light output is maintained after 50,000 hours of operation. In application, an LED fixture can last up to six [6] times longer than metal halide lamped sources.

SUPERIOR ILLUMINATION

Wal-Pak LED luminaires produce up to 4000 initial lumens. Brilliant white 5000K color temperature LED's provide uniform white light similar to traditional metal halide light sources. Combining excellent color rendering with superior thermal management, optimized reflector technology and premium glare-free Solite™ glass make the Wal-Pak LED luminaire a superior performer.

LED WAL-PAK FULL CUTOFF 4A MODEL TYPICAL APPLICATION:

- 100' Illumination Distribution Pattern [2 fixtures]
- 30' Forward Throw
- 75% Street Side Illumination
- IESNA Full Cutoff Compliant
- Replaces up to 175W Metal Halide

REDUCED ENERGY CONSUMPTION

Operating and maintenance costs of a lighting system are dramatically impacted by the specified lamp source and electrical system. Total system input watts and fixture operating life should be the driving considerations when addressing energy consumption and total cost of ownership. Energy savings increase when energy consumption is reduced and maintenance intervals are extended.

ANNUALIZED ENERGY SAVINGS/COST COMPARISON

FIXTURE	HOURS/YEAR	LIFE [hrs.]	TOTAL INPUT WATTS	COST/YEAR @ \$.10 KWH	RELAMP/FIXTURE	TOTAL ANNUALIZED COST/FIXTURE	SAVINGS PER FIXTURE	OVERALL % SAVINGS
LED Wal-Pak [2400 Lumens]	11/4015	50,000	22	\$8.83	\$0	\$8.83	\$92.96	91%
100W MP Wall Pack		12,000	128	\$51.79	\$50	\$101.79		
LED Wal-Pak [4000 Lumens]	11/4015	50,000	40	\$16.06	\$0	\$16.06	\$138.26	90%
175W MH Wall Pack		12,000	210	\$84.32	\$70	\$154.32		

NOTES: Cost = (Watts x 11 Hours Per Day x 365 Days per Year) / 1000 = Daily Kilowatt hour (KWH). kWh x \$.10 cents/kWh = Cost/year at \$.10 cents/kWh. Relamp is once per every 2.5 years, \$125/100W and \$175/175W averaged over 2.5 years.

HID/LED CROSS REFERENCE CHART

HID SYSTEMS	HID WATTAGE	RATED AVG. LIFE [hrs.]	WAL-PAK LED SYSTEM LUMEN PACKAGE¹	LED WATTAGE²	LED LIFE [hrs.]	ENERGY SAVINGS
60W Pulse Start Metal Halide	72	12,000	2A	22	50,000	68%
70W Pulse Start Metal Halide	90	12,000	2A	22	50,000	76%
100W Pulse Start Metal Halide	128	12,000	2A	22	50,000	83%
150W Pulse Start Metal Halide	189	12,000	4A	40	50,000	79%
175W Probe Start Metal Halide	210	12,000	4A	40	50,000	81%
60W High Pressure Sodium	66	24,000	2A	22	50,000	67%
70W High Pressure Sodium	91	24,000	2A	22	50,000	76%
100W High Pressure Sodium	130	24,000	4A	40	50,000	89%
150W High Pressure Sodium	188	24,000	4A	40	50,000	79%

NOTES: ¹ Nominal lumens prior to optical and configuration losses based on 67 CRI, 5000K package at 25°C ambient. 2A=2400 [Lumens], 4A=4000 [Lumens]. ² LED Wattage varies by Wal-Pak configuration. Hours of life based on 70% lumen maintenance.

DARK SKY FRIENDLY + OPTIONS + ACCESSORIES

DARK SKY FRIENDLY ILLUMINATION

The Wal-Pak Series with full cutoff door meets The Illuminating Engineering Society of North American (IESNA) classification for full cutoff illumination [zero light at or above the 90° plane]. Full cutoff luminaires minimize light trespass and light pollution.

BACK-UP POWER OPTIONS

Wal-Pak solves the requirement for providing back-up power illumination along the path of egress during critical power outage situations. Select from LED or compact fluorescent integral NiCad battery packs, quartz restrike, low or line voltage DC remote or separate circuit emergency back-up options.

SINGLE OR DUAL LAMP COMPACT FLUORESCENT EMERGENCY BATTERY PACK OPTIONS [CF-EM, EMI40, CF-EM-2L, EMI40-2L]

Integral UL924 emergency lighting NiCad battery pack provides emergency lighting illumination for single or dual lamp compact fluorescent light sources. The CF-EM battery pack is designed for 0°C/32°F illumination for up to 70W. The EMI40 provides up to 70W of cold temperature -18°C/-4°F emergency back-up illumination. For two [2] 32W lamp operation use CF-EM-2L or EMI40-2L.

LED BATTERY PACK OPTIONS [EM-LED, EM-LED-CD]

Integral NiCad battery pack provides battery back-up illumination for 4A models. The LED-EM battery pack is designed for 0°C/32°F applications. EM-LED-CD is designed for -18°C/-4°F cold temperature applications.

EMERGENCY LOW VOLTAGE 12V DC REMOTE OPTIONS [EM/SC/12V, 2EM/SC/12V]

Single or dual lamp low voltage 12V DC bi-pin remote lamp provides fixture illumination in the emergency mode. The 12V DC lamps are energized from a remote DC battery source [provided by others].

SEPARATE CIRCUIT QUARTZ RESTRIKE AND EMERGENCY QUARTZ RESTRIKE OPTION [2QMR/SC]

MR16 halogen lamp source illuminates upon the reactivation of the HID lamp. The secondary source provides separate circuit emergency illumination upon loss of utility power.

QUARTZ RESTRIKE OPTIONS [Q, QMR, 2QMR, EM, EM/SC]

T4 quartz restrike [120V] and single or dual MR16 halogen lamps allow adequate time for main HID lamp to reignite to full brilliance. EM option allows for cold start of HID lamps as it includes a time delay relay. The EM/SC emergency separate circuit option allows for the quartz lamps to be wired to an independent emergency back-up power source.

WIRE GUARD [WG/ITM]

Galvanized coated steel wire guard option prevents lens damage due to projected elements.

SPECIFICATION FEATURES

CONSTRUCTION AND RATINGS

Rugged one-piece die-cast aluminum housing and hinged, removable die-cast aluminum door. One-piece silicone gasket seals the optical chamber against performance degrading contaminants. UL 1598 wet location listed and IP65 ingress protection provides complete defense against dust entry while virtually eliminating moisture. Single point, captive stainless steel hardware secures the removable hinged door allowing for ease of installation and maintenance.

OPTICAL

Custom engineered highly reflective anodized aluminum reflectors provide high efficiency illumination. Impact resistant tempered borosilicate refractive glass provides maximum photometric performance and beam efficiency. Solite™ flat diamond patterned glass ensures smooth illumination coupled with a clean aesthetic appearance. Patent pending solid state LED luminaires are thermally optimized with 2400 or 4000 lumen package modules. Tradition light source optical assemblies are offered standard with horizontal medium or mogul-based metal halide [MH / MP] or high pressure sodium [HP] lamps. High efficiency T6 ceramic metal halide [CM] offers excellent color rendering and energy efficient 4-pin compact fluorescent [CF] lamps provide excellent lumen maintenance.

ELECTRICAL

Ballasts, LED driver and related electrical components are safely secured and hard mounted to the die-cast housing for optimal heat sinking and operating efficiency. All wiring is extended through a silicone gasket at the back of the housing to prevent entry of debris, moisture, dust and insects. Three 1/2" threaded conduit entry points allow for thru-branch wiring. Patent pending Wal-Pak LED thermal management system incorporates both conductive and natural convection to transfer heat rapidly away from the LED source. Integral LED electronic driver incorporates internal fusing designed to withstand a 3kV line surge and is Class 2 rated for 120-277V with an operating temperature of -30°C to 60°C. Wal-Pak LED systems maintain greater than 70% of the initial light output after 50,000 hours of operation. UL listed HID high power factor ballasts are Class H insulation rated [metal halide: 150, 175, 200, 250, 320, 350, 400W [-30°C / -20°F], high pressure sodium: 50, 70, 100, 150, 250, 400W [-40°C / -40°F]. High efficiency HID ballasts are available in a multitude of voltage configurations including 120, 208, 240, 277, 347 and 480V. Compact fluorescent high power factor ballasts are Class P insulation rated for 120-277V and have a starting temperature of -18°C/0°F.

CF-EM/2L=Emergency UL924 CF Power Pack [1] Lamp¹⁸
EBA=LED Battery Back-up²⁰
EMLED-CD=LED Battery Back-Up Cold Temperature²⁰

ACCESSORIES [order separately]

WG/WPGL=Wire Guard Borosilicate Glass Lens Door
WG/WPFC=Wire Guard Full Cutoff Door
WG/WPFL=Wire Guard Flat Glass Lens Door
TR/WP=Tamper Resistant Screw and Bit

DIMENSIONS

Borosilicate Glass Door

Flat Solite Glass Door

Full Cutoff Door

WATTAGE TABLE

Lamp Type	Lamp Wattage
Pulse Start Metal Halide	50, 70, 100, 150, 200, 250, 320, 350, 400W
Metal Halide	175, 250, 400W
High Pressure Sodium	50, 70, 100, 150, 250, 400W
T6 Ceramic Metal Halide	39, 70, 100, 150W
Compact Fluorescent	[1] 32, [1] 42, [1] 57, [1] 70, [2] 32, [2] 42, [2] 57, [2] 70W
LED	2400, 4000 [Lumens]

VOLTAGE CHART

DT=Dual-Tap	120/277V [wired 277V]
MT=Multi-Tap	120/208/240/277V [wired 277V]
TT=Tri-Tap	120/277/347V [wired 347V]
5T=5 Tap	120/208/240/277/480V [wired 480V]
E=Electronic Ballast	120-277V [Universal, 50/60Hz]
ED=Electronic LED Driver	120-277V [Universal, 50/60Hz]

CERTIFICATIONS

40°C Ambient Temperature Rating
UL and cUL Listed
IP65 Rated
ISO 9001
FDO [Full Cutoff]
EISA, ARRA and Title 20 Compliant

SHIPPING DATA

Approximate Net Weight: 32-42 [15-19 kgs.]

NOTES: 1 CF Single lamp offered in all door configurations. CF dual lamp models not offered with FL door type. 70W models not available with EMH40-2L, CF-EM, CF-EM-2L. CF not available in 347V. 2 All CM models offered with T6 envelope G12 lamp base. T6 Lamp included with CM models. Order UL with CM models. Ceramic Metal Halide (CM) is available with (MP) pulse start metal halide or E - Electronic Ballast. 3 MH products available for non-US markets only. 4 Small housing offered for 175W and below, CF and LD models. Large housing for 200W-400W. FL door not available with CF or 200-400W models. Polycarbonate lens available in models up to 175W max including LD. Polycarbonate lens not available with full cutoff door or FL models. Solite stipple glass is standard for FL lens. Clear glass is standard for full cutoff door types except for LD. LD full cutoff door is standard with solite glass. 5 LD nominal initial lumens prior to optical and configuration losses based on 67 CUS000K package at 25°C ambient. MH and MP 175W and below are medium base all others are mogul base. CF 84, 84, 114 and 140 models are lower. 105°C Rated wire required for thru-branch wiring for units 200W and higher. Thru-branch wiring is rated for 40°C for LD and 175W and below. Higher wattage thru-branch wiring is rated for use in 25°C ambient operating temperature environments. 7 347V not available with thru-branch wiring. For 347 or 480V LD specify voltage. ED will be supplied with integral step down transformer. 347V not available with CF lamps. 8 Available with 70-150W MP or CM lamps. E is standard for all CF models. All electronic ballasts are universal 120-277V. 9 Not all options can be combined. Only one emergency or battery back-up option available within the fixture. 10 Specify voltage. F1 - 120, 277 or 347V, F2 - 208 or 240V, PE - 120, 208, 240, 277V. Q, EM, EM/SC available in 120V only. 11 DIMA dimming ballast, specify number of lamps, available for 1 or 180W lamps supplied by others. 12 Emergency lamp leads out of the back of the unit to auxiliary power. Lamps independently wired to separate circuits. 13 Low Voltage 1 or 2 GU5.3 MR16 base, 12V DC, 35W max. Lamp supplied by others. 14 For use in 25°C ambient operating temperature environments. Specify 120 or 277V. CF-EM supports up to 1-67W CF. CF-EM/2L supports 2-18W CF; 18W lamps supplied by others. Minimum temperature is 0°F/32°C. 20 EM-LED and EMLED-CD available with 4A models only. For use in 25°C ambient operating temperature environments. Specify 120 or 277V EM-LED minimum 0°C/32°F; EMLED-CD minimum -20°C/-4°F. Battery pack is a UL recognized component. 21 Specifications and dimensions subject to change without notice.
